Feb. 20.-Premier A. Bonar Law informed the House of Commons this afternoon that the government regards it unnecessary to obtain the views of the United Seates concerning French occupation of the confirmation that Great Britain has no intention of trying to bring about Anglo-America intervention.

London, Feb. 20.—Convinced that no amount of persuasion can induce the United States to intervene in the Ruhr, the British government today took up once again its policy of "watchful waiting."

Officials declared that the eloquent plea of former Premier Lloyd George in the House of Commons in support Anglo-American mediation would have no immediate effect upon the government's policy. Great Britain, in conditions in Central Europe.

THE CHAMBER OF COMMERCE OF THE UNITED STATES URGES PASSAGE OF THE SHIP SUBSIDY BILL.

A saving of \$20,000,000 a year might be effected by the government through the enactment of the ship subsidy bill, Elliot H. Goodwin, resident vice president of the Chamber of Commerce of the United States, writes in an article in the current number of The Nation's Business.

It is pointed out by Mr. Goodwin that it cost the Government last year approximately \$50,000,000 to operate only part of its merchant fleet, and the estimted deficit for the coming year will be equally as large. He then asks: "Do we wish to continue this process to pay the annual deficit rather than to take thirty millions instead of fifty millions from the taxpayers in order to make it possible to place this fleet in the hands of private owners, taking it from under government control and giving the Amercia merchant marine a chance to exist as all other American industries?"

'The opponent of ship subsidy' he continues, will rest his argument on the ground that it is wrong for the government to use the taxpayers' money to advance a private industry. Is it more wrong to take this money to advance the industry under the advantages of private control than to take a larger amount to maintain this industry. Is this the first or outstanding instance of government subsidy to private industry in the public interest? How about the millions expended by the Government for the development of our railroads by private companies. creating that vast network of communications which alone enabled this country to reach its present stage of development and upon which today our prosperity in every line depends? How about our laws of long standing excluding foreign vessels from the coastwise trade for the sole purpose of allowing American private owners to operate

If the bill fails to pass, we then go back to where we were in 1914-to the position which we occupied from the close of the Civil War until the World War-a great nation producing goods far in excess of its own ability to consume, dependent upon other nations in times of peace and in times of crisis for that prosperity which depends upon the export trade, and without vessels essential to support our navy in case of war.

"This is the crisis that the people of Amercia, and particularly its business men, must face and face quickly, or else be found derelict when the time of emergency comes, as no one

can say it will not come." Immediate passage of the Shipping Bill by the Senate was urged in a resolution unanimously adopted by the National Merchant Marine Association at the meeting in Washington, about ten days ago, as a step "absolutely vital to win and to hold adequate markets for the products of our farms and factories and to guarantee the national defen se."

Provisions of the Shipping Bill were discussed at considerable length before the annual convention, which was attended by representatives of 150 national commercial organizations and associations in Middle-Western and Southern States.

Speaking of the hostility to the world "subsidy" in one of his messages on this subject, President Harding said: "If Government aid is a fair term-and I think it is-to apply to authorizations aggregating \$75,000,000 to promote good roads for market highways, it is equally fit to be applied to the establishment and maintenance of American market highways on the plain. salted seas. If Government aid is the proper designation for fifteen to forty millions annually expended to improve and maintain inland waterways in aid of commerce, it is a proper designation for a needed assistance to establish and maintain ocean high- flecks. ways where there is actual commerce to be carried."

BILL INTRODUCED SEEKING SPEEDIER **ELECTION RETURNS**

County Boards Would Be Required to Remain in Continuous Session

Columbus, Feb. 20.—Speedier electiets. Ravishing reds, crange. tion returns is the goal sought in the more subtle lure of the pastel hues, bill introduced by Representative and back again to the intoxicating Spidel, Montgomery County, chairman of the house elections commttee.

The bill, drafted at the instance of Ohio Newspaper publishers and editors, requires precinct election officials to remain in sesson from the time the polls close until all votes are counted and the result promptly transmitted by telegraph, or telephone to the county election boards.

County election boards, under the proposed law, will be required to remain in session until all precinct re turns are received and relayed without delay to the secretary of state by telephone or telegraph.

The bill seeks to empower the secretary of state to remove any election official who fails to comply with the provisions of this proposed law.

It is hoped by newspaper men that enactment of the proposed law will result in publication of complete unofficial election results not later than noon on the day after an election. Resolutions proposing amendments

to the state constitution providing for a poll tax for roads, and permitting appointment of local tax assessors by the state tax commission were introduced by Representatives Hilt, Meigs County, and Johnston, Richland County, respectively.

The Taft bill, limiting tax rates in

municipalities and rural districts is scheduled to come up for passage February 27.

Among new bills introduced this week are those seeking to regulate dealers in revolvers and pistols; relieve farmers from burdensome assessment for highway contruction; authorize the state welfare director to establish colonies of feeble minded, to be cared for outside of institutions; repeal the law authorizing appointment of assistant county school superintendents; changing the plans for the proposed new penitentiary in Madison County; repealing the eight hour day on public highway construction, and increasing fees paid by druggists to the state board of

CHILD LABOR LAWS

step to overcome the action of the U. S. Supreme Court in declaring child labor laws unconstitutional was taken Monday by Senate judiciary committee in recommending the passage of an amendment to the constitution legalizing the legislation. The committee voted 6 to 5 to report favorably on the proposed amendment. The proposed amendment to the

constitution would read: "The congress shall have power, concurrent with that of the several states, to limit or prohibit the labor of persons under the age of eighteen

The supreme court twice has declared unconstitutional acts of congress which sought to prevent the employment of children under certain conditions. On each occasion, the supreme court held this legislation was the sole right of the states and not the federal government,

It Pays to Advertise

T HAT'S a recognized fact today. But bear this in mind: The only reason it pays to advertise is that millions of thrifty folks find it a paying proposition to be guided by the advertisements. If you will read advertising consistenely for a while you'll readily agree that this statement is true.

It will pay you in money saved. Real bargains are offered frequently in the advertisements that appear in this paper.

It will pay you in time saved. It tells you exactly when and where to go for what you want to buy. You don't have to waste time and effort "shopping around.' If your time is worth money, advertising will pay you. Watch for them. Take advantage of them.

It will pay you in added satisfaction. Every time a merchant or manufacturer advertises he obligates himself to sell you goods that are as advertised. Read the advertisements and be sure you get your money's worth.

Reading the advertisements is a plain every-day business proposition. It is a duty you owe yourself and our pocketbook.

BIG **COMBINATION** SALE

We will sell at public auction at J. W. Tomlinson Sale Barn, west corporation line of Jamestown on

Friday, February 23, 1923

Commencing at 10:30 Sharp

All kinds of Live Stock, several good farm mares and geldings, a lot of good fresh cows, 35 brood sows and over 300 stock hogs already have been listed, and 500 bushels good seed oats.

Mr. John P. Dodds is moving to town and is listing with us his entire sale offering of household goods, which is a good lot of stuff. Side board, 6 dining chairs, dining table, dresser, bedstead, new mattress and springs, 4 rocking chairs, 1 fiber rug, 1 rag rug, 2 small tables, pictures, curtain poles, several yards matting, 1 large mirror, iron safe and several other articles too numerous to mention.

Let's make this sale a real success. South Charleston has held combination sales every two weeks for years and they sure are a success and everybody looks forward to those sales and go every time rain or shine.

It's the best way to sell any thing you may own and get the cash and get all it's worth. It don't matter whether it's fat hogs, fat cattle, stock hogs, brood sows, traps, machinery, harness, clover seed, hay balers or threshing machines—you list the stuff and we will furnish the buyers, the place, care, straw, advertising, auctioneers and clerks. If you have anything to list or sell, call 11 on 165 or see

THE CHAMBER OF COMMERCE OF THE UNITED STATES URGES PASSAGE OF THE SHIP SUBSIDY BILL.

A saving of \$20,000,000 a year might be effected by the government through the enactment of the ship subsidy bill, Elliot H. Goodwin, resident vice president of the Chamber of Commerce of the United States, writes in an article in the current number of The Nation's Business.

It is pointed out by Mr. Goodwin that it cost the Government last year approximately \$50,000,000 to operate only part of its merchant fleet, and the estimted deficit for the coming year will be equally as large. He then asks: "Do we wish to continue this process to pay the annual deficit rather than to take thirty millions instead of fifty millions from the taxpayers in order to make it possible to place this fleet in the hands of private owners, taking it from under government control and giving the Amercia merchant marine a chance to exist as all other American industries?"

'The opponent of ship subsidy' he continues, will rest his argument on the ground that it is wrong for the government to use the taxpayers' money to advance a private industry. Is it more wrong to take this money to advance the industry under the advantages of private control than to take a larger amount to maintain this industry. Is this the first or outstanding instance of government subsidy to private industry in the public interest? How about the millions expended by the Government for the development of our railroads by private companies. creating that vast network of communications which alone enabled this country to reach its present stage of development and upon which today our prosperity in every line depends? How about our laws of long standing excluding foreign vessels from the coastwise trade for the sole purpose of allowing American private owners to operate

If the bill fails to pass, we then go back to where we were in 1914-to the position which we occupied from the close of the Civil War until the World War-a great nation producing goods far in excess of its own ability to consume, dependent upon other nations in times of peace and in times of crisis for that prosperity which depends upon the export trade, and without vessels essential to support our navy in case of war.

"This is the crisis that the people of Amercia, and particularly its business men, must face and face quickly, or else be found derelict when the time of emergency comes, as no one can say it will not come."

Immediate passage of the Shipping Bill by the Senate was urged in a resolution unanimously adopted by the National Merchant Marine Association at the meeting in Washington, about ten days ago, as a step "absolutely vital to win and to hold adequate markets for the products of our farms and factories and to guarantee the national defen se."

Provisions of the Shipping Bill were discussed at considerable length before the annual convention, which was attended by representatives of 150 national commercial organizations and associations in Middle-Western and Southern States.

Speaking of the hostility to the world "subsidy" in one of his messages on this subject, President Harding said: "If Government aid is a fair term-and I think it is-to apply to authorizations aggregating \$75,000,000 to promote good roads for market highways, it is equally fit to be applied to the establishment and maintenance of American market highways on the plain. salted seas. If Government aid is the proper designation for fifteen to forty millions annually expended to improve and maintain inland waterways in aid of commerce, it is a proper designation for a needed assistance to establish and maintain ocean highways where there is actual commerce to be carried."

BILL INTRODUCED SEEKING SPEEDIFR **ELECTION RETURNS**

County Boards Would Be Required to Remain in Continuous Session

Columbus, Feb. 20.—Speedier electiets. Ravishing reds, orange. bill introduced by Representative and back again to the intoxicating Spidel, Montgomery County, chairman of the house elections commttee.

The bill, drafted at the instance of Ohio Newspaper publishers and editors, requires precinct election officials to remain in sesson from the time the polls close until all votes are counted and the result promptly transmitted by telegraph, or telephone to the county election boards.

County election boards, under the proposed law, will be required to remain in session until all precinct returns are received and relayed without delay to the secretary of state by telephone or telegraph.

The bill seeks to empower the secretary of state to remove any election official who fails to comply with the provisions of this proposed law.

It is hoped by newspaper men that enactment of the proposed law will result in publication of complete unofficial election results not later than noon on the day after an election.

Resolutions proposing amendments to the state constitution providing for a poll tax for roads, and permitting appointment of local tax assessors by the state tax commission were introduced by Representatives Hilt, Meigs County, and Johnston, Rich. land County, respectively.

The Taft bill, limiting tax rates in municipalities and rural districts is scheduled to come up for passage February 27.

Among new bills introduced this week are those seeking to regulate dealers in revolvers and pistols; relieve farmers from burdensome as sessment for highway contruction; authorize the state welfare director to establish colonies of feeble minded to be cared for outside of institutions; repeal the law authorizing appointerintendents; changing the plans for the proposed new penitentiary in her bread-Madison County; repealing the eight hour day on public highway construction, and increasing fees paid by druggists to the state board of pharmacy.

BETTER THAN CALOMEL

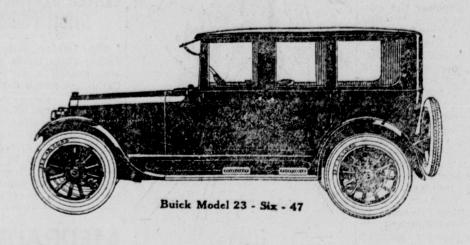

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-

colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "logy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 15c and 30c.

Public Preference for Buick Increases Daily.

WHEN BETTER CARS ARE BUILT WILL BUILD THEM

Business Firms and Business Men, as well as all other Motorists, prefer Buick because it is so dependable, so economical, and so well adapted to meet their various needs no matter how urgent or exacting.

They realize, also, that this increasing public preference for Buick, so marked this year in the 1923 Models, makes the selection of their Buick a matter of moment.

Choosing the model they desire well in advance of the time they wish to drive it has become a practice with the vast majority of Buick owners who have been Buick buyers year after year.

When you are ready to purchase your new car we will be pleased to have you come to our Sales Room, where we can show you the open and closed models, or call us on the Phone and we will be glad to bring the car to your home, at which time we can explain to you the car, how we can make it possible for you to buy on our terms and so forth.

CHILD LABOR LAWS

Washington, Feb. 20,-The first step to overcome the action of the U S. Supreme Court in declaring child labor laws unconstitutional was taken Monday by Senate judiciary committee in recommending the passage of an amendment to the constitution legalizing the legislation. The committee voted 6 to 5 to report favorably on the proposed amendment. The proposed amendment to the

constitution would read: "The congress shall have power, concurrent with that of the several states, to limit or prohibit the labor of persons under the age of eighteen

The supreme court twice has declared unconstitutional acts of congress which sought to prevent the employment of children under certain conditions. On each occasion, the supreme court held this legislation was the sole right of the states and not the federal government,

It Pays to Advertise

T HAT'S a recognized fact today. But bear this in mind: The only reason it pays to advertise is that millions of thrifty folks find it a paying proposition to be guided by the advertisements. If you will read advertising consistenely for a while you'll readily agree that this statement is true.

It will pay you in money saved. Real bargains are offered frequently in the advertisements that appear in this paper.

It will pay you in time saved. It tells you exactly when and where to go for what you want to buy. You don't have to waste time and effort "shopping around.' If your time is worth money, advertising will pay you. Watch for them. Take advantage of them.

It will pay you in added satisfaction. Every time a merchant or manufacturer advertises he obligates himself to sell you goods that are as advertised. Read the advertisements and be sure you get your money's worth.

Reading the advertisements is a plain every-day business proposition. It is a duty you owe yourself and our pocketbook.
